INDEX

ABSTRACTS of scientific papers presented at the Marine Biological Laboratory, Summer of 1945, 184.
Agglutination of starfish sperm by fertilizin, 84.
Annual report of the Marine Biological Laboratory, 1.
Arbacia punctulata, dilution medium and survival of the spermatozoa, 162.
Arbacia punctulata egg when centrifuged in single salt solutions, stratification and breaking of the, 72.
Azide and cyanide, the effect of, on the development of frogs' eggs, 122.

BIOCHEMISTRY of Tetrahymena, IV, 131.
Biochemistry of Tetrahymena, VII, 229.
Bryozoa, studies on fresh-water. XVI. Fredericella australiensis var. browni, n. var., 215.
Bryozoa, studies on marine. I. Aeverrillia setigera (Hincks) 1887, 201.

CHEMICAL factors influencing artificial activation of Nereis eggs, 144.
Ciliates from Phytia setifer, 95.
Cochliophilus depressus gen. nov., sp. nov. and Cochliophilus minor sp. nov., holotrichous ciliates from the mantle cavity of Phytia setifer (Cooper), 95.
Cyanide and azide, the effects of, on the development of frogs' eggs, 122.
Cyanide, effect of, on respiration of Paramecium caudatum and Paramecium aurelia, 76.

DEVELOPMENT of marine fouling communities, 103.
DEWEY, VIRGINIA C. *See* GEORGE W. KIDDER
Dilution medium and survival of the spermatozoa of Arbacia punctulata. I. Effect of the medium on fertilizing power, 162.
Dominant lethality and correlated chromosome effects in Habrobracon eggs x-rayed in diplotene and in late metaphase I, 61.

EFFECT of cyanide on respiration in Paramecium caudatum and Paramecium aurelia, 76.

FRESH-WATER Bryozoa, XVI, 215.
Frogs' eggs, the effects of cyanide and azide on the development of, 122.

GOLGI apparatus, in chicken gizzard epithelium by means of the quartz microscope, a study of the, 157.
Grasshopper, structure of meiotic chromosomes in the, 242.

HABROBRACON eggs x-rayed in diplotene and in late metaphase I, dominant lethality and correlated chromosome effects in, 61.
HARVEY, ETHEL BROWNE. Stratification and breaking of the Arbacia punctulata egg when centrifuged in single salt solutions, 72.
HAYASHI, TERU. Dilution medium and survival of the spermatozoa of Arbacia punctulata. I. Effect of the medium on fertilizing power, 162.
Heteroagglutinins in lobster-blood, 193.
Heterocineta phoronopsidis sp. nov., a ciliate from the tentacles of Phoronopsis viridis Hilton, 180.
HIBBARD, HOPE AND GEORGE I. LAVIN. A study of the Golgi apparatus in chicken gizzard epithelium by means of the quartz microscope, 157.
Holotrichous ciliates from the mantle cavity of Phytia setifer (Cooper), 95.

KIDDER, GEORGE W. AND VIRGINIA C. DEWEY. Studies on the biochemistry of Tetrahymena. IV. Amino acids and their relation to the biosynthesis of thiamine, 131.
KIDDER, GEORGE W. AND VIRGINIA C. DEWEY. Studies on the biochemistry of Tetrahymena. VII. Riboflavin, pantothen, biotin, niacin, and pyridoxine in the growth of T. geleii W, 229.
KOZLOFF, EUGENE N. Cochliophilus depressus gen. nov., sp. nov. and Cochliophilus minor sp. nov., holotrichous ciliates from the mantle cavity of Phytia setifer (Cooper), 95.
KOZLOFF, EUGENE N. Heterocineta phoronopsidis sp. nov., a ciliate from the tentacles of Phoronopsis viridis Hilton, 180.

LAVIN, GEORGE I. *See* HOPE HIBBARD, 157.
LEFEVRE, PAUL G. Certain chemical factors influencing artificial activation of Nereis eggs, 144.
